## 世纪江山如诗

As the first sightseeing ship under the Century Cruises and the first green, intelligent, high-end, and luxurious large tourist ship on the Yangtze River, "Centurama Verse" adheres to the construction standards of luxury cruises, integrating dining, entertainment, culture, and leisure to enhance the short-distance sightseeing experience for tourists from multiple dimensions. The ship follows "Fengjie-Maoping" route, offering a one-day comprehensive tour of the essence of the Qutang Gorge, Wu Gorge, and Xiling Gorge sections. The debut of "Centurama Verse" has created a brand-new tourist ship business model, enriched the product offerings of Century Cruises' operating vessels, and conveyed the concept of a destination of true leisure to the world.

# A Pioneer of The Yangtze River Sightseeing Cruise

This is a milestone creation

**Largest Sightseeing Ship in the Three Gorges:** With a length exceeding 100 meters.

**The first vertical bow of the Yangtze River:** adopting special ship modeling, the overall hull is more steady and magnificent.

**First Civilian Use of Military Technology:** Applying submarine technology such as shock-absorbing airbags from the 719 Institute and double-layer suspended floors, significantly improving noise reduction and vibration isolation.

**Innovative Panoramic Diagonal Balcony on the Yangtze River:** Increasing the glass exposure area of the balcony, expanding the viewing angle while increasing the usable indoor space.

**The first cruise ship on the Yangtze River offering a one-day tour of the Three Gorges.**

# Cruising in the Picturesque Gorges

## - 360 degree glass curtain walls

The entire ship is equipped with 360-degree glass curtain walls. Almost all the exterior walls of the passenger area are made of glass curtain walls. The ceilings of the bow, stern, and double stairwells are all made of glass, which increases the transparency and brightness inside the ship, and infinitely compresses the distance between passengers and nature.

## - Private space for panoramic view

The viewing area covers 80% of the total area of the ship, with ample seating to satisfy the needs of tourists to sit freely, bringing different touring experiences. There are 16 private rooms, each with an independent viewing balcony and private bathroom, offering exclusive views of the river and mountains.
